- Construction machinery
- Leisure centres and Gyms
- Care homes
- NHS
- HGVs and other vehicle fleets
- Churches
- Schools and nurseries
- Shopping centres
- Restaurants
- Dentists
- Chiropractors and Osteopaths
- ...and anywhere that alcohol gel is already in use or can be used

Features:

- No power source needed
- A lance can be used
- 8M ultra flexi lightweight hose and fine mist spraygun
- Military grade construction system
- Under 14kg weight
- Purpose designed ergonomic spray gun and tip
- No set up time required
- Just spray and leave, it evaporates very fast in the same way alcohol hand rub does
- Perfect for hard and soft surfaces
- Effective on both smooth and rough surfaces
- WHO recommended formula for light use on electronic equipment

What is it? Quite simply, an extra-large (22 litre) fine mist sprayer with 75% alcohol:

- The largest, fully portable and self-powered spray sanitisation system
- Kills 99.9% of Viruses, Bacteria and Germs
- CDC and WHO recommended
- 22L canister (equivalent coverage of approximately 70 aerosols or trigger sprays)
- Dries very fast – complete clean can be done in under 4 minutes
- EN14476, EN1276 and EN1650 certified for food handling area sanitisation/disinfection
- Provides atomised application of disinfectant with small particle size
- 750m² coverage at a speed of 1m² in under 5 seconds
