About Actionpoint

Who are we?

Actionpoint is a family run company with a combined total of over 200 years experience within the packaging industry. We have the knowledge, the insight and the skillset to help improve your packaging processes and products. Our outstanding customer service and passion for helping our customers means you can trust us to be your packaging partner.

Why choose Actionpoint?

- Next day delivery as standard, and same day delivery on urgent items
- 45 years experience as a family owned and run company
- In-house design team giving you more flexibility and input
- Dedicated account manager giving you one point of contact who knows your needs
- Online portal
- Insights into possible packaging savings, through our review programmes
- Visit our Packaging Creation Lounge where we will design your packaging on-site

Bondmark Guarantee

The BondMark™ seal on our products guarantees 100% conformity to international packaging standards that meet every critical requirement of global industrial markets

Corrugated

Corrugated is fast becoming the eco-friendly choice for many warehouse and packaging operations. We have a huge range of stock boxes, layer pads and postal boxes: with our own in-house design team and sample cutting facilities, we can create bespoke solutions for you within a matter of hours! All the corrugated products we sell are manufactured from FSC certified board and are fully recyclable.

Single wall cartons

Single wall cartons are made from strong kraft and are popular for storing and shipping lighter weight goods. Supplied flat packed they are easy and ready to make up by taping the bottom and top flaps. Sizes shown in the table are the internal dimensions of the box and are measured in the following order: length x width x height.

Our code	Description (mm)	Inches	Quantity
PP3318-1	Single Wall 152 x 152 x 152mm	(6 x 6 x 6")	25/3200
PP3320-1	Single Wall 204 x 152 x 102mm	(8 x 6 x 4")	25/3000
PP3319-1	Single Wall 204 x 204 x 204mm	(8 x 8 x 8")	25/1800
PP3322-1	Single Wall 229 x 152 x 152mm	(9 x 6 x 6")	25/2400
PP3323-1	Single Wall 305 x 229 x 102mm	(12 x 9 x 4")	25/1600
PP3325-1	Single Wall 305 x 229 x 152mm	(12 x 9 x 6")	25/1600
PP3326-1	Single Wall 305 x 229 x 229mm	(12 x 9 x 9")	25/1200
PP3327-1	Single Wall 305 x 229 x 305mm	(12 x 9 x 12")	25/800
PP3328-1	Single Wall 330 x 254 x 319mm	(13 x 10 x 12½")	25/800
PP3329-1	Single Wall 457 x 305 x 254mm	(18 x 12 x 10")	25/800
PP4858-1	Single Wall 610 x 610 x 610mm	(24 x 24 x 24")	240

Double wall cartons

Double wall cartons provide extra protection for heavy or fragile items, meaning your goods are delivered in one piece. Some sizes are multiscored which gives you the flexibility to reduce the box height for multiple uses. Sizes shown in the table are the internal dimensions of the box and are measured in the following order: length x width x height.

Our code	Description (mm)	Inches	Quantity
PP3055-1	Double Wall 254 x 254 x 254mm	(10 x 10 x 10")	15/540
PP3250-1	Double Wall 305 x 229 x 150mm	(12 x 9 x 6")	15/540
PP3331-1	Double Wall 305 x 229 x 229mm	(12 x 9 x 9")	15/540
PP3332-1	Double Wall 305 x 305 x 305mm	(12 x 12 x 12")	15/360
PP3333-1	Double Wall 355 x 265 x 305mm	(14 x 10¼ x 12")	15/360
PP3648-1	Double Wall 355 x 355 x 355mm	(14 x 14 x 14")	10/180
PP3334-1	Double Wall 400 x 400 x 400mm	(16 x 16 x 16")	15/90
PP3335-1	Double Wall 457 x 305 x 254mm	(18 x 12 x 10")	15/360
PP3336-1	Double Wall 457 x 305 x 305mm	(18 x 12 x 12")	15/360
PP3337-1	Double Wall 457 x 457 x 305mm	(18 x 18 x 12")	15/180
PP3338-1	Double Wall 457 x 457 x 457mm	(18 x 18 x 18")	10/90
PP3339-1	Double Wall 457 x 457 x 508mm	(18 x 18 x 20")	15/90
PP3341-1	Double Wall 584 x 381 x 343mm	(23 x 15 x 13½")	10/180
PP3342-1	Double Wall 610 x 457 x 457mm	(24 x 18 x 18")	15/90
PP3343-1	Double Wall 610 x 610 x 610mm	(24 x 24 x 24")	15/90

Layer pads

Layer pads are widely used to increase load stability on a pallet whilst offering extra protection against damage and dirt. Lightweight but durable they keep the overall weight down and provide an extra layer of protection.

Our code	Description	Quantity
SP8465-1	Double Wall 1200 x 1000mm	200/190
SP6582-1	Double Wall 500 x 1000mm	400

SP1408-1	Single Wall 900 x 1100mm	500

ecorap™

ecorap™ is a lightweight, flexible corrugated paper making it an ideal packaging solution for interleaving and separating products. It is environmentally friendly and available in a range of different sizes.

Our code	Description	Quantity
PP3553-1	Corrugated Paper: Ecorap™ 1250mm x 75m	1
PP3554-1	Corrugated Paper: Ecorap™ 1500mm x 75m	1
PP3549-1	Corrugated Paper: Ecorap™ 650mm x 75m	1
PP3644-1	Corrugated Paper: Ecorap™ 750mm x 75m	1
PP3550-1	Corrugated Paper: Ecorap™ 900mm x 75m	1

Stationery boxes

We offer a wide range of boxes to suit compliment slips, letterheads, business cards and also archive boxes.

Our Code	Description	Case Quantity
PP3311-1	Cartons: Ream Box 1/3 A4 Comp Slip, White Lid & Base	100
PP3313-1	Cartons: Ream Box A4 Brown Lid & Base	50
PP3312-1	Cartons: Ream Box A4 White Lid & Base	50

Pallets and pallet boxes

Pallet boxes are ideal for shipping large, heavy and bulky items. We manufacture and stock a range of standard pallet boxes which can be supplied flat packed or fully assembled. All sizes can be folded back down when not in use which makes them very easy to transport between different locations. We also provide bespoke pallet boxes on request, that can be tailored to your individual needs.

Our Code	Description	Pack Quantity
SP9026-1	Pallets: Timber 1200 x 1000mm (40 x 48") 4-way entry	1
PF5336-1	Pallets: Timber 1200 x 800mm Euro Heavy Weight 4-way entry	1

Bespoke corrugated

Actionpoint are the go to company for bespoke packaging solutions. From packaging tiny electronic components to large fragile mirrors, our team of in-house designers love a challenge. With direct input from you the client to ensure that we provide a solution that fits your brief 100%.

Packaging Creation Lounge

COMING SOON

What is the PCL?

Our Packaging creation lounge (PCL) allows us to work with you to create the perfect bespoke packaging.

Enjoy a fully immersive premium experience with one of our qualified packaging designers. You will discuss and brainstorm various design concepts and turn your ideas into a reality in just a few minutes using our state of the art CAD software and sampling facilities.

If you are interested in learning more or booking an appointment, contact your account manager today.

Tapes & Dispensers

We stock a wide variety of tapes including brands such as ; e-tape, denva, maxtape, texus and many more to ensure that we have the right ones to suit every application and user preference.

Along with this we have a good range of tape dispensers to make tape application easy and efficient. Low-noise dispensers help to keep noise down on the packing lines.

e-tape

TEXUS

v-pro

DENVA

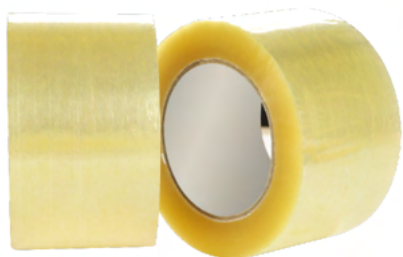

maxtape

DENVA™

DENVA™ is our high performance polypropylene packing tape, with water based adhesive used in packing operations throughout Europe.

Low noise tape allows you to seal boxes silently and effectively and is ideal for busy packing lines and confined spaces, where you want to reduce noise pollution.

DENVA™ polypropylene
low noise tape

DENVA™ printed
tape

Our Code	Description	Case Quantity
TD2816-1	Tape: DENVA™ PP 24mm x 66m Clear	72
TD3682-1	Tape: DENVA™ PP 48mm x 66m Brown	36
TD2444-1	Tape: DENVA™ PP 48mm x 66m Clear	36
SP4494-1	Tape: DENVA™ PP 74mm x 132m Clear	24

V-pro™

V-pro™ packing tape has a slow release, silent unwind and super strength solvent adhesive.

Our Code	Description	Case Quantity
TD3429-1	Tape: V-pro™ Vinyl Brown 48mm x 66m	36
TD1299-1	Tape: V-pro™ Vinyl Brown 72mm x 66m	24
TD3430-1	Tape: V-pro™ Vinyl Clear 48mm x 66m	36
TD3431-1	Tape: V-pro™ Vinyl White 48mm x 66m	36

e-tape™

e-tape™ Plus is an acrylic adhesive tape that does not contain harmful solvents. The result is a product with low noise unwinding. It's durable as well as non-toxic and resistant to UV rays and is perfect for pretty much any regular packing line.

e-tape™ Silver – don't be misled by the name, this tape is not silver! It is however coated with a very durable hot melt adhesive which makes it great for sealing cartons as it adheres quickly to the surface.

e-tape™ No. 2 has an invincible solvent adhesive, which makes it ideal for using in pretty much any environment, including low temperatures and other challenging conditions.

e-tape™ No. 1 is much like No. 2 but with an even thicker layer of adhesive. This is generally overkill for most standard applications and environments but definitely worth considering if e-tape™ No.2 is not giving you the results you need.

e-tape™ V – you guessed it! The V stands for vinyl. e-tape vinyl is a high quality super strength tape that can be torn by hand or used in conjunction with the standard e-tape™ dispenser. Ideal for those heavier more demanding environments, or even for use outside.

e-tape™

e-tape™ is the new standard of tape which is environmentally friendly, saving on waste as well as saving time and money. Savings are achieved through the smaller core size, longer roll lengths and specially designed dispensers for maximum performance.

127% more tape on a roll of the same diameter

Crossweave filament tape

Tough material reinforced with glass fibre with excellent abrasion and moisture resistance. Ideal for reinforcing cartons and sticks instantly to paper or bad surfaces.

Our Code	Description	Case Quantity
TD2026-1	Tape: Crossweave Filament 24mm x 50m	36
TD4056-1	Tape: Crossweave Filament 48mm x 50m	18

TEXUS™ machine tape

High performance polypropylene tape with high grab adhesive.

Our Code	Description	Case Quantity
TD3202-1	Tape: Texus™ OPP Hot Melt Sealing Clear 48mm x 990m	6

Paper tape

Paper tape is perfect for packages that need to be secured neatly before shipping or storage – it's water-resistant and it also works well in humid conditions so it's a great option for packaging export products. Paper Tape can act as a tamper evident security seal and is far more eco friendly than standard packaging tapes.

Reinforced self adhesive paper tape -
extra strength and resistance

Protection

Having the right protection for sending out your products can save you time and money on returns, damaged goods and your overall packaging. Our experts can advise on what type of protection will be most relevant to your needs, and find a solution tailored to your company. Not only can we provide standard products like bubble wrap, but also paper protection machines, papernuts, foam profiles and much more.

STOROpack

We are an exclusive distributor for Storopack in your area. We work closely with and alongside their experts to ensure that you end up with the best suited void fill solution for your current and future needs.

Advantages of PAPERplus®

- Wide range: individual solutions from a diverse range
- Superior: outstanding cushioning effect and compressive strength
- Efficient: creasing technology for maximum material utilisation
- Reliable: high availability through proven technology
- Ergonomics: e.g. touch panels, foot pedals and noise reduction
- Image: paper has a favourable image with end customers

PAPERplus® CLASSIC

PAPERplus® TRACK

PAPERplus® PAPPILLON

PAPERplus® CHEVRON

PAPERplus® SHOOTER

Advantages of AIRplus®

- Reliable: constant film quality from the company's own production
- Diverse: there is an air cushion type for every application
- Economical: reduction in raw materials due to multi-layer CO extrusion
- Durable: excellent mechanical properties
- Environmental: AIRplus® film types can be recycled and AIRplus® Biofilm is com postable in accordance with DIN Certco EN 13432
- Saves space: on-demand system for minimal storage
- Integrates: compact, user-friendly devices for key packing areas
- Practical disposal: one step and all that remains is the empty film

AIRplus®

STOROPack

Sustainability and environmental protection with PAPERplus®

Reuse

• Because of the outstanding quality of PAPERplus®, the paper padding can be used many times.

Reduce

• Storopack supplies paper with recycled constituents. This means an efficient use of the recycling loop.
• Manufacture of the narrower GE paper rolls requires up to 20% less water and energy.

Recycle

• PAPERplus® paper padding is part of the paper recycling loop and is fully recyclable. Storopack does not use coated paper. Disposal via existing recycling facilities contributes to reducing the use of primary raw materials.
• PAPERplus® uses only inks which the recycler can easily remove (de-inking process).

Sustainability and environmental protection with AIRplus®

Reuse

• Due to the exceptional quality of AIRplus®, the air cushion can be used multiple times.

Reduce

• The polyethylene film of AIRplus® contains reclaimed raw materials from production recycled materials.
• The production technology of the three-layered coextruded films reduces the use of raw material and improves the quality of the air cushions.
• The low weight of AIRplus® protective packaging leads to fuel savings during transport.

Recycle

• AIRplus® film is fully recyclable. The disposal via the existing recycling cycles contributes to the reduction in the use of primary raw materials.

Renew

• AIRplus® BIO film consists of a biologically degradable plastic compound on the basis of the renewable raw material polylactic acid (PLA) with copolyester.

Mailing

When posting your goods, particularly more fragile ones it's good to know that you have the appropriate protection for them to arrive safely.

With a lining made of bubble wrap and a strong outer paper, our bubble mailers are perfect for sending out a wide range of goods whether it be clothing, calendars, DVDs, stationery or anything else that is fragile.

- **Bubble mailers**
- **Documents enclosed envelopes**
- **Mailing bags**
- **Parcel labels**
- **Cardboard tubes**

Bubble mailers

Our range of quality bubble envelopes offer a safe and secure way to send items that require extra protection through the post.

Our insight™ programme is perfect for your business if you are looking to improve your packaging process but might need a little help. Your insight™ journey will start with a free of charge, no obligation, in-depth packaging audit and feedback report conducted by an independent external Industry expert. The report will pin-point and showcase any areas that potentially need improving and will recommend the most cost-effective solution to solve this.

As well as seamless customer service and bespoke packaging solutions, insight™ review will help your business with -

- A more cost-effective packaging process
- Training packaging buyers to make your packaging decisions more efficient
- Quarterly reviews by an industry expert
- Laboratory testing on all materials to ensure the packaging is right for you
- Prototype testing at no extra cost to make sure you are 100% confident before you commit
- We'll make sure that your business is up-to-date with the latest in packaging legislation and guidance

Sustainable packaging

Protecting the environment is one of the biggest challenges humankind has had to face. By the year 2050, there will be more plastic in our ocean's, than there will be fish - unless we start making some changes.

Becoming more eco-friendly shouldn't be difficult, so that's why we did the hard work for you. Sustainable packaging is one small step, which makes one big difference. By switching your packaging to the environmentally friendly alternative you could save time, money, waste, and the planet

eden™

Over the past few years we have researched and tested sustainable packaging products to make sure we are offering customers the most responsible packaging options. We have created a product range of eco friendly packaging solutions whilst keeping the costs affordable to support businesses in going green.

eden self-adhesive paper tape

- made from brown or white kraft paper
- can be used in standard tape dispensers
- 100% recyclable
- can be custom printed

eden reinforced self adhesive paper tape

- made from brown kraft paper
- reinforced for greater security and tamper evidence
- can be used in a standard tape dispenser

eden reinforced gummed paper tape

- can be used in a standard tape dispenser
- 100% recyclable & biodegradable
- can be custom printed
- water activated adhesive
- reinforced for greater security and tamper evidence
- can be used in semi-auto or fully auto dispensers

eden polybags

- contains 30% recycled post consumer waste
- exempt from the plastic packaging tax
- large stock range available
- suitable for food use

eden padded mailers

- free from plastic
- 100% recyclable & biodegradable
- super lightweight
- available in all standard sizes

eden documents enclosed wallets

- 100% paper – no plastics
- manufactured from biodegradable glassine paper
- solvent free
- printed DOCUMENTS ENCLOSED

eden e-stretch

- thin, high performance so you use less than traditional films
- pre-stretched, so it's more efficient and user-friendly
- double the length (600m) of standard palletwrap
- triple reinforced edges on the roll to prevent damage
- available in different thicknesses

eden paper strapping

- biodegradable and environmentally friendly
- quick and easy to apply
- can be used in certain strapping machines without any adaptation
- strong and robust

eden edge guards

- made from strong & robust fibreboard
- available in various thicknesses
- stock sizes available as well as custom sizes
- protects the edges of your goods and adds pallet stability
- 100% recyclable

eden bio bubble wrap

- biodegradable – starts to biodegrade when exposed to sunlight, microbes and heat
- can be used for void fill or wrapping
- no change in material type or feel so can be used like standard bubblewrap
- green in colour to convey its eco friendly credentials

eden paper bubble wrap

- paper rather than plastics
- 100% biodegradable and compostable
- available in brown or white
- supplied in handy sheet format
- looks neater than plastic bubblewrap

insight eden™ is our sustainable programme ideal for businesses looking to reduce their carbon footprint. We will examine your packaging process from start to finish, and advise you on any sustainable, more environmentally friendly alternatives to help your business 'go-green'.

With our new, fully sustainable bespoke product range, you will have more choice than ever before, to ensure that your transition to eco-friendly alternatives is seamless while keeping your costs down.

Still wondering if insight eden™ is the right programme for you? Here are some more benefits to your business –

- All products are designed to meet your packaging and sustainability needs
- Prototype testing at no extra cost to make sure you are 100% confident before you commit
- Cost-effective solutions that can reduce your overall spend
- You will have full ownership of your packaging supply chain
- You will be one step ahead of any changes to legislations
- Your business will be more sustainable
- Offer an alternative to plastics, to protect you from the new Plastic Packaging Tax
