Why choose us?

Actionpoint has a reputation for being at the forefront of the packaging industry when it comes to **product innovation**; and our Eden range is no exception. Our industry standing means we are often the first to hear about new innovative solutions that can help you to formulate an ethical supply chain. Over the past few years, we have designed and developed a range of sustainable, **climate-neutral packaging** products. With sustainability at the heart of this range, we made sure that all product materials are biodegradable and generate **minimal or zero waste**. ‘Going Green’ should not be difficult, so we offer next day delivery and keep cost down to ensure you a hassle-free experience whilst lowering your carbon footprint.

Why choose Eden?

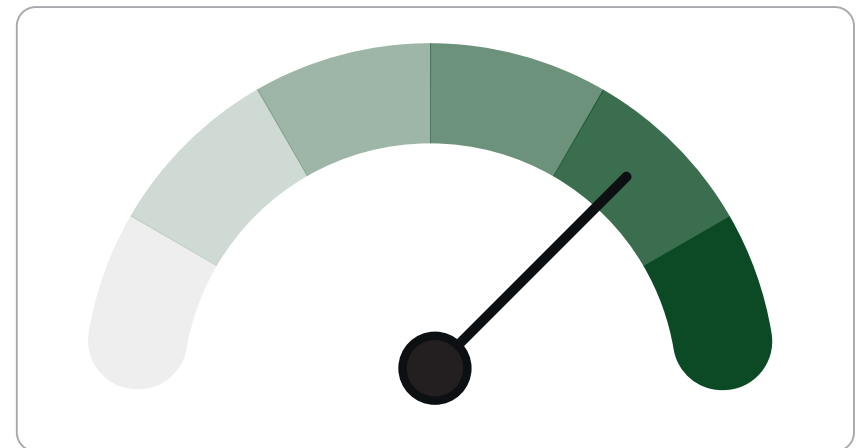

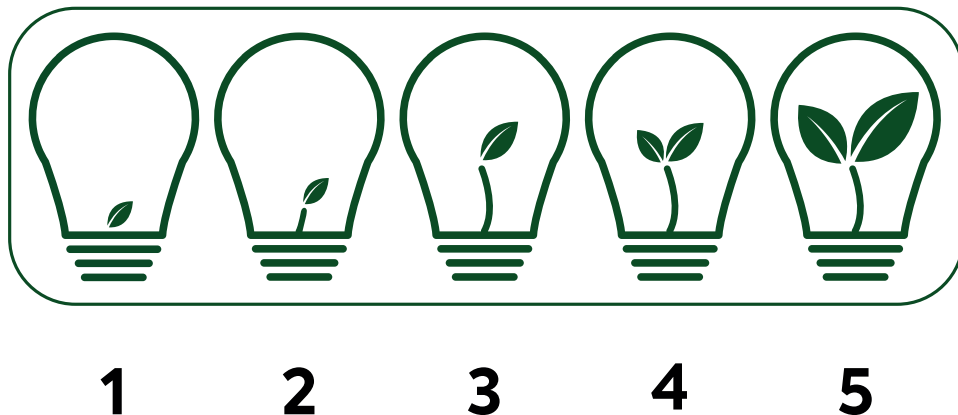

- Our Eden range is made up of **high-quality products** that offer excellent performance
- All products are sustainable and cost effective
- We offer **next day delivery** options
- Bespoke options are available
- We have an in-house product development team, who can work with our customers to source more **unique sustainable product options**
- Your packaging will be more **eco-friendly**
- Could be **exempt from the Plastic Packaging Tax**

Sustainability Scale

Our Eden sustainability scale has been designed so you have full transparency of your packaging. We understand that businesses are interested in where their packaging has come from and where it goes after use.

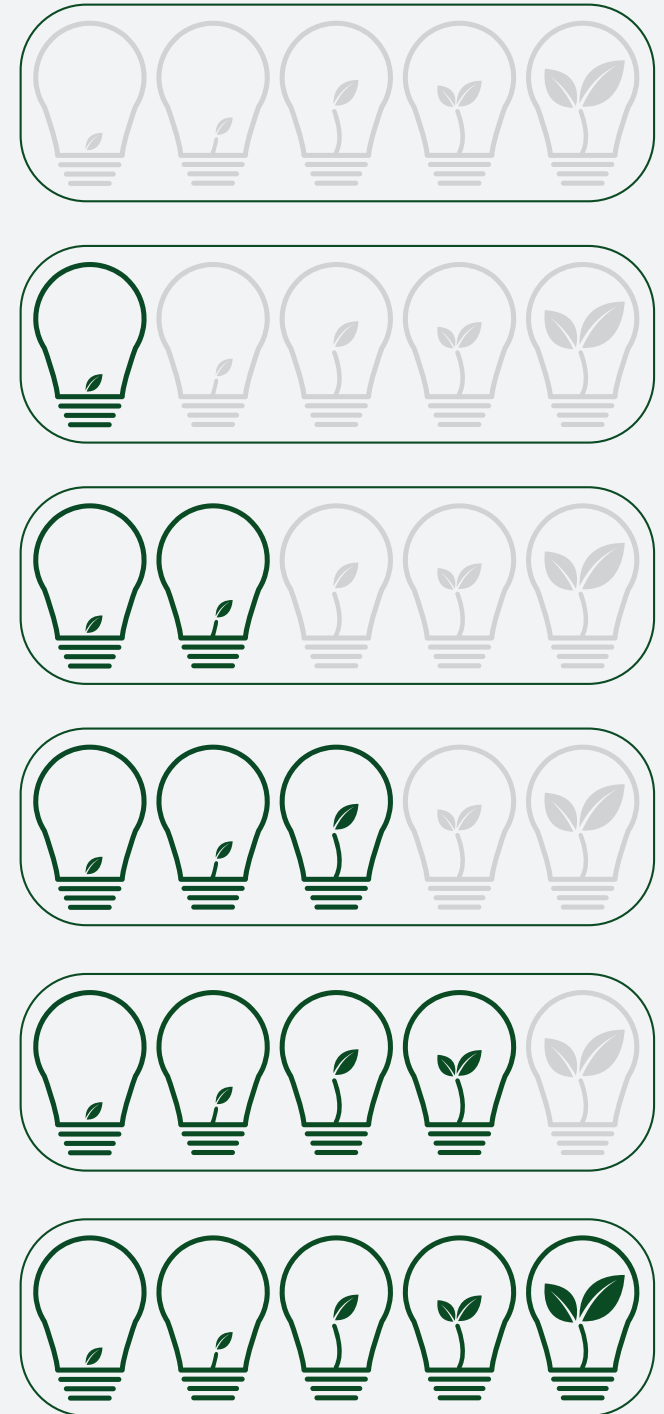

How does it work?

We have broken the scale down in to five points (bulbs). Each point that the packaging falls into will depend how sustainable it is

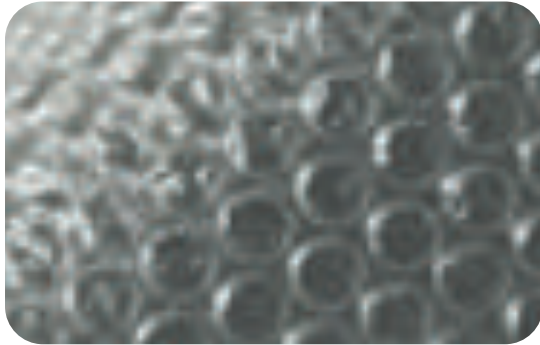

What are the five points?

- Is it **recyclable**?
- Is it made from **recycled content**?
(over 30% if plastic, to avoid the plastic packaging tax)
- Is it **free of plastic**?
- Is it **sustainably sourced**?
- Does it meet the **same performance criteria** as its non sustainable alternative?

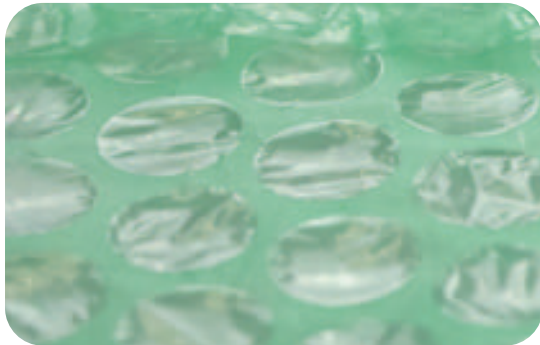

Bubblewrap

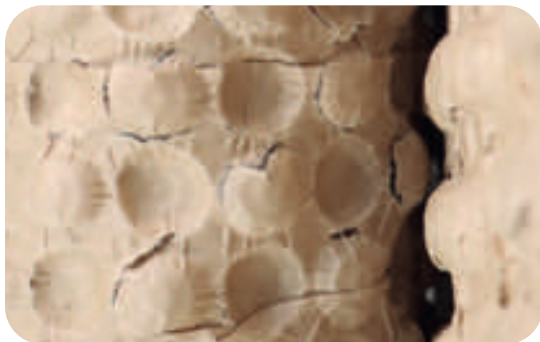

Eden 30

- Contains 30% recycled content
- Polythene bubble manufactured in a range of bubble sizes
- Available in 10mm and 20mm bubble size

Eden Bio

- Oxo-Biodegradable
- Polythene bubble manufactured in a range of bubble sizes
- Available in 10mm and 20mm bubble size

Eden Paper

- 100% plastic free
- 100% biodegradable and compostable
- Available in brown and white
- Supplied in sheet form

Tape

Eden Self Adhesive Paper Tape

- Good adhesion on irregular surfaces
- Can be torn by hand
- Recyclable base paper
- Can be custom printed
- Can be used in standard tape dispensers
- Temperature resistant up to 60 degrees
- 2 colours available

Eden Gummed Paper Tape

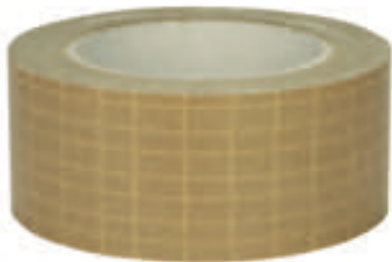

- 100% recyclable & biodegradable
- Can be custom printed
- Water activated adhesive
- Can be reinforced for greater security and tamper evidence
- Can be used in semi-auto or fully auto dispensers

Tape

Eden 30 Clear Tape

- Silent unwinding
- High adhesion at high and low temperatures
- Low environmental impact compared to traditional tapes
- Reduction in thickness allows for a saving over 20% of plastic and smaller space with the same length
- Film produced using 85% recycled plastic
- Ideal to close standard and recycled boxes
- High mechanical tear resistance

Eden Reinforced Self Adhesive Paper Tape

- Made from brown kraft paper
- Reinforced for greater security and tamper evidence
- Can be used in a standard tape dispenser

Tape

Self Adhesive E-Tape

- Can be torn by hand
- Can be custom printed
- Temperature resistant 60°
- Maximum conformability
- Good adhesion on irregular surfaces
- Performing even at low temperatures
- Can be used in an e-tape dispenser
- Resistant to accidental knocks
- Can be used on a standard tape dispenser
- Double the lengths of standard rolls - meaning less roll changes and space saving
- The only fully FSC certified paper tape and adhesive

Strapping

Eden 30

- 100% Recyclable
- Quick and easy reply
- Strong and robust
- Can be used in certain strapping machines without any adaptation
- Biodegradable

Stretchfilm

Eden E-stretch

- Thin, high performance so you use less than traditional films
- Pre-stretched, so it's more efficient and user-friendly
- Double the length of standard palletwrap (600m)
- Triple reinforced edges on the roll to prevent damage
- Available in different thicknesses
- Material includes 30% post-consumer waste making it PPT compliant

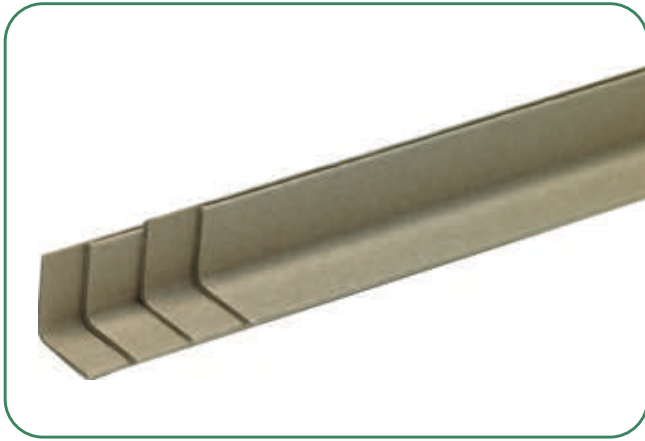

Eden 30 stretchfilm

- Material includes 30% post-consumer waste making it PPT compliant
- Made in the same super high-strength material as the popular Megastretch brand
- Various thicknesses available
- Available in Clear, Black, Blue and other tints
- Available with extended or flush core

Edge Protection

Eden Edge Guards

- Made from strong & robust fibreboard
- Available in various thicknesses
- Stock sizes available as well as custom sizes
- Protects the edges of your goods and adds pallet stability
- 100% recyclable

Polybags

Eden Polybags

- Contains 30% post-consumer waste
- Exempt from plastic packaging tax
- Large stock range available
- All packed in dispenser packs
- 100% recyclable
- Suitable for direct food contact

Envelopes / Wallets

Eden Documents Enclosed Wallets

- 100% plastic free
- Manufactured from biodegradable glassline paper
- Solvent free
- Printed DOCUMENTS ENCLOSED

Eden Padded Mailers

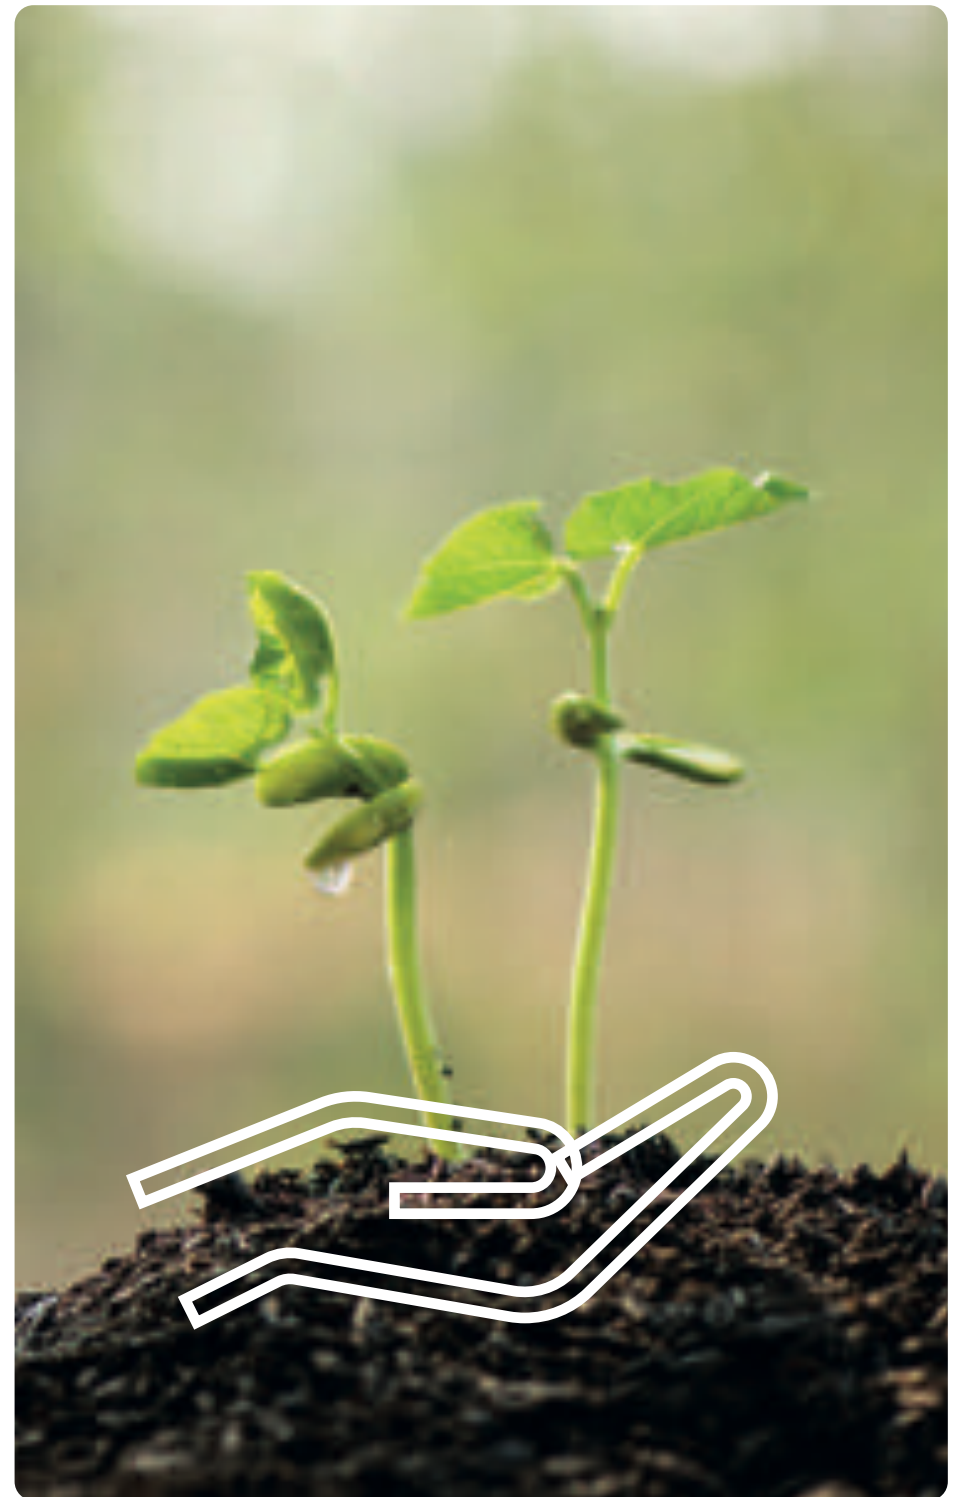

- Free from plastic
- 100% recyclable & biodegradable
- Super lightweight
- Available in all standard sizes

Insight Eden™ is our sustainable programme ideal for businesses looking to reduce their carbon footprint. We will examine your packaging process from start to finish, and advise you on any sustainable, more environmentally friendly alternatives to help your business 'go-green'.

With our new, fully sustainable bespoke product range, you will have more choice than ever before, to ensure that your transition to eco-friendly alternatives is seamless while keeping your costs down.

Still wondering if insight eden™ is the right programme for you?

Here are some more benefits to your business –

- All products are designed to meet your packaging and sustainability needs
- Prototype testing at no extra cost to make sure you are 100% confident before you commit
- Cost-effective solutions that can reduce your overall spend
- You will have full ownership of your packaging supply chain
- You will be one step ahead of any changes to legislations
- Your business will be more sustainable
- Offer an alternative to plastics, to protect you from the new Plastic Packaging Tax

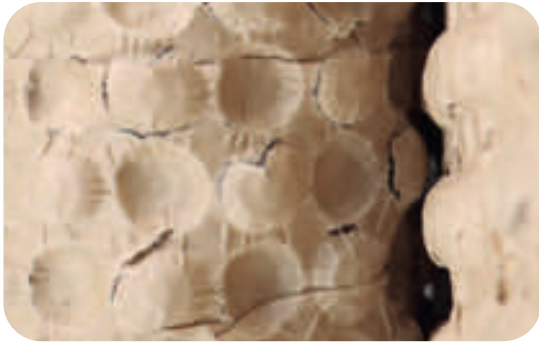

P r o d u c t S p e c S h e e t s

The background of the image is a close-up, teal-tinted photograph of crumpled bubble wrap. The bubbles are of various sizes and are reflected by light, creating a textured, shimmering effect. The overall color palette is a range of teal and green hues.

plastic

Low noise

Self Adhesive E-Tape

self adhesive e-tape with
eco-paper backing

- Can be torn by hand
- Can be custom printed
- Temperature resistant 60°
- Maximum conformability
- Good adhesion on irregular surfaces
- Performing even at low temperatures
- Can be used in an e-tape dispenser
- Resistant to accidental knocks
- Can be used on a standard tape dispenser
- Double the lengths of standard rolls -
meaning less roll changes and space saving
- The only fully FSC certified paper tape
and adhesive

Sizes Available

Brown 48mm x 100m

Same great protection
but environmentally
friendly

e-tape

A close-up photograph of several parallel cardboard straps. The straps are made of brown, textured cardboard. On each strap, the word "RECYCLABLE" is printed in a dark, sans-serif font, accompanied by a small recycling symbol (a triangle of arrows) to its left. The straps are set against a background of dark, curved, ribbed lines, possibly from a corrugated cardboard box. The lighting is soft, highlighting the texture of the cardboard.

Strapping

Paper Strapping

Completely recyclable alternative
to polypropylene plastic strapping

Sizes Available

12mm x 2000m

- 100% Recyclable
- Biodegradable
- Quick and easy reply
- Strong and robust
- Can be used in certain strapping machines without any adaptation

Has been designed
to be used in automatic
and semi-automatic
production operations

Same great
protection but
environmentally
friendly

- Suitable for direct food contact

Same great protection

A stack of white envelopes is shown, slightly offset to reveal multiple layers. Each envelope features a green recycling symbol in the upper right corner. The symbol consists of three chasing arrows forming a triangle, with the text "100% Paper" printed in the center. The text "Envelopes / Wallets" is overlaid in a large, bold, black sans-serif font across the middle of the image.
