## Why choose us?

At Actionpoint, our ethos is thoughtful packaging. We are mindful of the needs of our customers and staff, how we contribute to our community, and the impact of our activities on the environment.

Our solutions are designed to solve any packaging problems our clients are experiencing while minimising their carbon footprint. Packaging products are made from renewable resources, use recycled material, and are recyclable and biodegradable. We encourage our customers to recycle by offering a service baling and transporting their used packaging to the local recycling centre. Meanwhile, our product range is under continual development as we investigate the latest sustainable materials and innovations.

As a carbon neutral business, we are always seeking out new ways to drive sustainability. Initiatives are wide-ranging, from introducing electric cars on our fleet, to supporting tree and wildflower planting in schools, to giving staff time off to take part in litter picking events. We are proud to be a Forest Stewardship Council® certified company, providing FSC®-certified materials (FSC®-C186587)\*, we also hold the ISO 14001 Environment Management Systems certification.

\*Please note that this applies only to the products identified as such in this brochure.

Please ask us about our FSC® - certified products used for bespoke packaging.

## Discover how to improve your packaging's sustainability with an Environmental Insight Packaging Review.

In a matter of hours, you will gain a new understanding of this key area of your operation and learn the steps you can take to reduce your eco impact.

The review involves a specialist visiting your premises to assess your packaging design, performance, materials, processes, and management. Afterwards, you will receive a report revealing cost-effective, practical actions that will improve efficiencies, decrease waste, reduce or eliminate problematic materials, and lower emissions.

Before

**Still wondering if Environmental Insight is right for you?  
Here are some of the benefits to your business:**

### Optimises

use of resources,  
for savings in raw  
materials, energy,  
spend, and time

### Reduces

packaging bulk,  
weight, waste, and  
pack times while  
freeing up space

### Supports

the packaging  
aspect of ISO 14001  
Environmental  
Management Systems

### Improves

corporate image,  
customer satisfaction,  
and a company's  
competitive edge

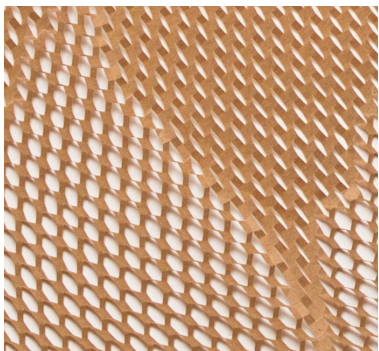

After

... and keeps you a step ahead of legislation such as Plastic Packaging Tax, Extended Producer Responsibility for Packaging, and the EU's Packaging and Packaging Waste Regulation.

# Bubblewraps

same great protection while  
reducing environmental impact

## Edén Honeycomb

### Product Features

- **100% plastic free and recyclable, manufactured from Kraft paper**
- Strong, hexagonal structure ideal for protecting fragile products
- Self-interlocks reducing the need for extra tape

## Edén Paper

### Product Features

- **100% plastic free, biodegradable, compostable and recyclable**
- Protects small and medium sized parcels
- Supplied in sheet form, in either brown or white

## Edén 30

### Product Features

- **Contains a minimum of 30% recycled content, manufactured from Polythene**
- Available in 10mm and 20mm bubble size
- Other sizes are available

A close-up photograph of a light-colored wooden handle, possibly for a tool or a piece of equipment. The wood grain is visible, and the handle is slightly curved. In the upper right corner, there is a green graphic of a leaf with a brown stem. The background is blurred, showing more of the wooden structure.

## **Tapes, Strapping & Stretch Films**

# Tapes

## Eden Self Adhesive Paper Tape

### Product Features

- **Recyclable base paper**
- Good adhesion on irregular surfaces
- Can be torn by hand and can be used in standard tape dispensers
- Temperature resistant up to 60 degrees
- Has the option to be custom printed
- Available in brown or white

## Eden Gummed Paper Tape

### Product Features

- **100% recyclable and biodegradable**
- Water activated adhesive
- Can be used in semi-auto or fully automated tape dispensers
- Has the option to be custom printed
- Other sizes available

## Tapes

### Eden Reinforced Self Adhesive Paper Tape

#### Product Features

- **Made from brown Kraft paper**
- Can be used in standard tape dispensers
- Reinforced for greater security and tamper evident

# Strapping

## Eden 30 Strapping

### Product Features

- **100% recyclable and biodegradable**
- Quick and easy to apply
- Strong and robust
- Can be used in certain strapping machines without adaptation
- Can be used in automatic or semi-automatic production operations

### Product Details

Code	Description	Pack QTY
ED6001-1	Paper Strapping: Eden Strap 12mm x 2000m (55kp breaking strain)	1

# Stretch Films

## Eden E-Stretch

### Product Features

- **Material includes 30% post-consumer waste**
- **Plastic Packaging Tax compliant**
- Thin but high performance so you use less and save on storage
- Pre-stretched, so it's more efficient and user-friendly
- Double the length of standard palletwrap (600m)
- Triple reinforced edges to prevent damage
- Other sizes/thicknesses available

### Product Details

Code	Description	Pack QTY	Pallet QTY
